

Table 6: Profile of Client Turnover

Table 6.									
Report Year:		2007							
State Identifier:		IN							
Profile of Service Utilization	Total Served at Beginning of Year (unduplicated)	Admissions During the year (duplicated)	Discharges During the year (duplicated)	Length of Stay (in Days): Discharged Patients		For Clients in Facility for Less Than 1 Year: Average Length of Stay (in Days): Residents at end of year		For Clients in Facility More Than 1 Year: Average Length of Stay (in Days): Residents at end of year	
				Average (Mean)	Median	Average (Mean)	Median	Average (Mean)	Median
<b>State Hospitals</b>	874	645	640	457	195	136	110	2,449	1,339
Children (0 to 17 years)	66	67	65	371	344	151	145	601	509
Adults (18 yrs and over)	808	578	575	467	178	134	103	2,522	1,377
Age Not Available	-	-	-	-	-				
<b>Other Psychiatric Inpatient</b>	-	3,538	-						
Children (0 to 17 years)		358							
Adults (18 yrs and over)		3180							
Age Not Available		-							
<b>Residential Tx Centers</b>	-	803	-						
Children (0 to 17 years)		803							
Adults (18 yrs and over)		-							
Age Not Available		-							
<b>Community Programs</b>	-	86,430							
Children (0 to 17 years)		29,655							
Adults (18 yrs and over)		56,775							
Age Not Available									
Comments on Data (State Hospital):									
Comments on Data (Other Inpatient):									
Comments on Data (Residential Treatment):									
Comments on Data (Community Programs):									
Comments on Data (Overall):									
Comments on Data (Overall, Continue):		<p>* The reports shown on this website contain numbers for Indiana residents who are served by the Hoosier Assurance Plan (HAP) and do not contain numbers for all Indiana residents who may receive mental health or addiction services. The HAP is the main method by which the Indiana Division of Mental Health and Addiction can fund community mental health services. As established by the Indiana Legislature, the HAP is designed to support and manage the delivery of behavioral healthcare services to individuals who are in a low income population and who have clearly identified mental health needs.</p> <p>* Persons with a diagnosis of only substance abuse or mental retardation are not included in these reports. Therefore, persons with a co-occurring diagnosis of mental illness and substance abuse or mental retardation are included.</p> <p>* This report currently contains data from the Community Services Data System (CSDS) and Creative SocioMedic's - Behavioral Health Information System's - Decision Support System (DSS).</p> <p>* The Length of Service for State Hospitals was figured by including any transfer between hospitals as a single Length of Service, as long as service was not broken. The mean and median for Length of Stay was figured using this method.</p> <p>* The 'Other Hospital Inpatient' and 'Community Programs' row in the 'Admissions During Year' column has duplicated Community data.</p>
